ANNUAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

Norfolk, ss.

To the Town Meeting Members of the Town of Weymouth, in said County, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby notified to meet in the Daniel L. O'Donnell Auditorium of the North High School, 1051 Commercial Street, East Weymouth, on

Monday, The 7th Day of May, 1990

at seven o'clock and thirty minutes in the evening, then and there to act upon the following articles (a copy of which is enclosed); and in case all the articles in the warrant shall not have been acted upon at the meeting called for the 7th day of May, 1990 to meet in adjourned session in the aforesaid Daniel L. O'Donnell Auditorium of the North High School at seven o'clock and thirty minutes in the evening of each successive evening thereafter, unless other times may be then and there voted..

Given under my hand at Weymouth, the 6th day of MARCH in the year of our Lord nineteen hundred and ninety.

Franklin Fryer

Town Clerk of Weymouth

Dear Town Meeting Members:

The Town of Weymouth is at a fiscal crossroads. Not since 1981 and Proposition 2-1/2 has the Town faced the reductions to the Operating Budgets that it does this year. Based on the Appropriation Committee's review of level-funded budget requests and projected revenues from all sources, we determined that the budget was out of balance by $8.5 million.

As you review the Apropriation Committee's recommendation for Article 1 you will notice a difference from prior years. There are, in effect, two recommendations for Article 1. One will be the normal Recommended FY 1991 Budget (maximum reductions). The other will be a Recommended Contingency Budget (adds back $5.6 million). If the override fails, then the Recommended FY 1991 Budget would go into effect. If the override is successful, then the Recommended Contingency Budget would be in effect. There will be no need to call a Special Town Meeting to adjust the budgets.

The reason for this approach is because the Board of Selectmen has asked the voters of Weymouth to approve a $5.6 million override of Proposition 2-1/2. That vote will not occur until after the Annual Town Meeting has completed it's work. If we do not take this approach, and if the override is successful, it would be necessary to return to a Special Town Meeting before July 1 to distribute the amounts approved by the override to the proper departments. Please refer to Appendix A for the specific details on the recommended reductions and override distributions.

The Appropriation Committee is charged, through the By-Laws of the Town, to present the annual operating budget to you, the Town Meeting Members at the Annual Town Meeting. We have accomplished this. But, we would like to point out that this budget is presented without enthusiasm. This budget is the product of many difficult hours of deliberations. We feel that the approach that we have taken is in the best interests of the Town. As in the past, our main concern was to maintain the highest level of services while minimizing the impact to Town personnel.

At the present time, the only uncertainty is the amount of Local Aid we will receive for FY 1991. Like last year, because of the fiscal situation at the State level, we anticipate that it will be July or August before we know the final amount. Currently, based on information received from our legislators and the Department of Revenue, we are projecting a $1 million reduction from last year's Local Aid amount. Further, we already know that we are facing a significant deficit, even if the State were to level fund last year's Local Aid amount. The deficit must be addressed now.

Ladies and gentlemen, we ask you to review our recommendations closely. You, the Town Meeting Members, will ultimately decide the priorities and establish the course that the Town will take in the next few years. Because of the devastating nature of the reductions that will take place under either scenario, it is critical that you fully review and understand what effect these reductions will have on the Town of Weymouth. We feel that you will come to some difficult conclusions and will support the Appropriation Committee's recommendations.

The members of the Appropriation Committee appreciate your efforts in behalf of the Town as well as the cooperation that we have received from the various departments, boards and committees during an incredibly difficult year for the Town of Weymouth.

Your Appropriation Committee

WEYMOUTH CAPITAL BUDGET COMMITTEE
Annual Report
1990 Annual Town Meeting

Membership:

Citizen appointees:

Paul Baharian — Robert Lopes
William Neil — John Pitts

Appropriation Committee appointees:

Adrienne Gowan — Peter Cardia

Planning Board appointees:

William J. Begley — Mary S. McElroy

Responsibility:

To study proposal capital outlay requests involving: any individual piece of equipment; complete system consisting of a number of pieces of equipment and related items; extraordinary maintenance and repairs of a single structure, piece of equipment, or land use, with an aggregate cost of a minimum of $25,000 and a useful life of three years or more. The committee shall annually prepare a written report for presentation to the Annual Town Meeting.

Report:

This is our sixth report and continued strides have been made to establish capital planning in the Town of Weymouth. We would like to thank those departments and boards that submitted timely, comprehensive and well thought-out requests.

The committee realizes that our town is faced with financial constraints, however as our responsibility dictates, we must present to the town meeting a prioritized list of requested capital expenditures for the coming fiscal year. This list represents expenditures required to maintain and revitalize the infrastructure of the town.

Providing adequate services is important, requiring not only people but also the adequate means to provide those services. A balance must be provided between the two. Ignoring the town's investment in its infrastructure can be very costly in the future.

The committee feels the number one priority in the town is the police station. The present building is not worthy of our town. It would appear that the present economic climate has afforded the town the opportunity to secure bids at considerable savings to the tax payers of our community. In order to let the construction go forward and take advantage of these favorable bids, it is the Police Station Building Committee's objective to minimize as much as possible the financial impact on the fiscal 1991 budget.

EXHIBIT B (cont.)

We wish to commend the Town Maintenance Committee for their diligence and dedication to the testing and replacement of our faulty oil storage tanks. They have carried out this task in a very professional manner.

The Planning Department has again deferred the Whitman's Pond project due to the lack of funds from the state.

The committee has recommended the deferring of $1,245,840 of the School Department's requests for 1991 and the Fire Department's Fire Alarm Maintenance Vehicle due to the current financial restraints the town finds itself. In the case of the School Department's requests, it was also done with purpose of trying to level out more evenly their expenditures of a capital nature over the next several years.

This year we reviewed $14,042,952 of capital requests. The requests are summarized as follows:

	Building	Equipment	Maintenance	Total
Police	6,500,000			6,500,000
School	2,627,227		1,485,742	4,112,969

This represents the MWRA charge to the Town for the "Cleanup of Boston Harbor". Of the original estimated charges, $800,000 has been placed in the Sewer Budget because it represents those legitimate costs associated with our sewer maintenance and operation that is paid for by residents via the sewer service charge. We have lowered the original estimate also, because of a review by the MWRA on a proposed reduction to its operating budget by the MWRA Advisory Board. A final number should be known by Town Meeting.

This schedule will be posted in the Town Hall with a list and description of any areas closed for conservation, prior to the start of each week and a copy of said schedule will be sent to the Division of Law Enforcement by the Shellfish Warden.

4. MAXIMUM ALLOWANCE

(c) the estimated population of clams between one inch and one-half (1-1/2) inches;

Such surveys will be used to determine the productivity of each area and establish limits for each area for the taking of shellfish which will not exceed 70% of standing legal-size crop.

A comparison of removed shellfish to original estimates of legal-size clams will also be used to justify the closing of any particular area.

8. LICENSES

MEMO

DATE: DECEMBER 11, 1989

TO: BOARD OF ASSESSORS

FROM: R. WEAVER

SUBJECT: THREE YEAR PLAN FOR RECERTIFICATION

Following is a list of advantages should ACONE's proposal be accepted:

1. Field work would be completed much sooner, thereby, allowing us to set our tax rate sooner.

2. New growth figures could be established earlier in the year.

3. Our field cards are in serious need of updating. They have not been changed since FY 1982.

4. Although our records have been kept up to date by inspection of property with a building permit, an interior inspection of all property has not been made since FY 1982. By updating information over a three year period we most likely would satisfy the DOR certification requirements.

5. By spreading the cost over a three year period the impact to Weymouth would be much less.

6. The cost of the project is only slightly more than the cost of our last update. The fact that we would be able to issue tax bills earlier would more then make up for this difference.

7. The Town could well save over $200,000 should this proposal be accepted.

Summary: I would recommend that we go forward with this proposal. Mr. Mendoza has stated that ACONE would commence work provided he had a letter of intent from the Town. The field work for FY 1991 should start shortly in order to issue bills timely in the Fall. This would allow is to concentrate our efforts on the abatement process once FY 1990 bills are sent.

Richard Weaver, CMA
Board of Assessors
Town Hall
Weymouth, Massachusetts 02188

Dear Board of Assessors:

This will respond further to our recent meeting whereby we suggested that Weymouth might want to consider a three (3) year plan for their next revaluation update.

Such a plan would begin in early 1990 and be completed in July of 1992 for your fiscal 1993 recertification requirement with the Department of Revenue.

Involved in this project would be the necessary field review work for fiscal 1991-1992 and 1993, including new growth figures so that the appropriate tax rates can be established for each of the two (2) years before the revaluation for fiscal 1993.

Additionally, we recommend that all new recordcards and property sketches be prepared. Existing records have been in use for many years and need updating.

I might add that if we were to include this phase of work in this project, the possibility of a complete listing in fiscal 1993 would, in all probability, be deferred for another ten (10) years because we will have examined many of the properties during this three (3) year period so that all records would be current at certification time.

For your further information, a cost for interior inspections could easily exceed two hundred thousand dollars ($200,000) making a total cost of your next revaluation in the range of four to five hundred thousand plus. On a per parcel basis, this would be in the range of twenty-seven dollars ($27.00).

I believe listing can be eliminated at your next revaluation on the basis that we would be updating information including resketching of residential properties under a three (3) year plan.

Contrasted by a probable cost of two hundred twenty-two thousand nine hundred dollars ($222,900), spread over a three (3) year period, reflects an average cost of seventy-four thousand three hundred ($74,300) per year.

(continued)

APPENDIX E - ARTICLE 19 (Cont.)

Knowing that cost is a concern to your municipality, and when your weigh the options, it would be far less costly for Weymouth to pursue the three (3) year proposal with an established price for your next revaluation.

This price concession is motivated in part because we would be able to schedule work around our other updates during the next three (3) years instead of trying to sqeeze it all in in less than seven months.

If further questions on this proposal are required, I will be more than willing to meet with your Board to answer any questions you may have.

Sincerely,

Harold Mendoza, CMA-MAA
President

Mr. Robert Lopes, Chairman
Capital Planning Budget Committee
Town Hall
75 Middle Street
Weymouth, Massachusetts 02189

Dear Mr. Lopes:

Attached for your information and use is the capital budget projects for the Weymouth Public Schools for the next five years.

The list contains no provision for the replacement of oil or gasoline tanks. It is my understanding that the replacement of oil and gasoline tanks will be dealt with by a submission from the Town Maintenance Study Committee.

Any work that is related to the removal or an encapsulation of asbestos will be charged to the previously approved articles that relate to asbestos.

The first year of the capital budget contains those projects deleted from the list last year and the projects originally scheduled for this year. Should this combination of years cause difficulty for your Committee, please contact me so we may discuss the matter and resolve the issue.

Should you change any priority listing and or amount of money allocated in any year, I would like to be involved in the discussion prior to any decision by your committee.

I look forward to meeting with you and your committee to discuss the projects and the balance of the school department capital planning budget.

Very truly yours,

Robert J. Siminski

No such license shall specify more than one premises at one time. Upon written application, the licensing authority may from time to time amend any license granted under this section by changing the premises specified.

APPENDIX K - ARTICLE 42

§57C. Preliminary Real Estate or Property Tax; Notice.

The provisions of this section shall be applicable in any city or town which accepts the provisions of this section, notwithstanding the provisions of section fifty-seven. Except as otherwise provided, a notice of preliminary tax for real estate and personal property shall be sent out no later than July first of each year, and shall be due and payable in two installments, the first installment due on August first, the second installment on November first, after which dates if unpaid, they shall become delinquent and subject to interest as provided herein. Each installment shall in no event exceed twenty-five percent of the tax payable during the preceding fiscal year.

All provisions of law regarding the procedures for issuing, mailing and collecting tax assessments upon real and personal property and betterment assessments shall be applicable to the notice of preliminary tax provided hereunder, including the payment of interest. To the extent that any rights or remedies under law accrue from the date that the tax bill is issued, only the tax bill issued upon the establishment of the tax rate for the curent fiscal year shall govern such rights and remedies. The provisions of section twenty-one C shall apply to the tax rate established by the city or town for the current fiscal year.

Notwithstanding the provisions of the first paragraph, a city or town which seeks to issue a notice of preliminary tax for any fiscal year may, with the prior written approval of the commissioner, require the payment of the preliminary tax installment in excess of twenty-five percent of the tax payable during the preceding fiscal year, to the extent that such excess represents twenty-five percent of the amount of tax accruing as a result of the loss of exemption from tax that had been granted in the preceding fiscal year or to the extent that such excess represents twenty-five percent of the amount of the tax accruing as a result of improvements to the parcel. A city or town is further authorized under this paragraph to issue a notice of preliminary tax for any property which becomes subject to taxation for the first time in a current fiscal year.

The assessors may, on application or on their own motion, abate so much of the preliminary tax as remains unpaid that is in excess of the property owner's proportional share.

The actual tax bill issued upon the establishment of the tax rate for the fiscal year, after credit is given for the preliminary tax payments previously made, shall be due and payable in two installments, on February first and on May first respectively, after which dates if unpaid, they shall become delinquent.

In the event that actual tax bills are not mailed by December thirty-first, then upon the establishment of the tax rate there shall be a single actual bill due and payable on May first, or thirty days after the date of mailing, whichever is later. Such bill shall represent the full balance owed after credit is given for the preliminary tax payments previously made.

Bills for taxes assessed under section seventy-five or section seventy-six shall be sent out seasonably upon commitment, and shall be due and payable on May first or thirty days after the date on which the said bills are mailed, whichever is later.

If any such installment, tax, betterment assessment or apportionment thereof, water rate or annual sewer use or other charge added to such tax, as reduced by any abatement is not timely paid, it shall be delinquent, and interest at the rate of fourteen percent per annum computed from the due date shall be paid. For purposes of this section, amounts not timely received shall be deemed unpaid. The commissioner of revenue may issue guidelines as appropriate for the implementation of this section. (Added by 1989, 653 §41, approved January 4, 1990; by §243, applicable to property taxes assessed for fiscal years beginning on or after July 1, 1990.)

Chapter 213

MOTOR VEHICLES-ABANDONMENT OF VEHICLE-PENALTY

An act authorizing cities and towns to penalize those who abandon motor vehicles.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is to immediately authorize cities and towns to provide for abandoned cars, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience. _____

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

GL c. 90 §22B

SECTION 1. Chapter 90 of the General Laws is hereby amended by striking out section 22B, as appearing in the 1986 Official Edition, and inserting in place thereof the following section:-

Section 22B. (a) Whoever abandons a motor vehicle registered or unregistered, upon any public or private way or upon any property other than his own without the permission of the owner or lessee of said property shall be fined two hundred and fifty dollars for the first such abandonment and five hundred dollars for each such abandonment thereafter. A conviction of a violation of this section shall be reported forthwith by the court to the registrar, who may revoke, for a period not exceeding three months, the license of the person so convicted, and if the motor vehicle is registered in his name or was last registered in his name he shall be prohibited from registering another motor vehicle for one year, and no appeal, motion for new trial or exceptions shall operate to stay the revocation of the license or the prohibition of registration.

This subsection shall not apply in a city or town which accepts the provisions of subsection (b) to (k), inclusive.

Subsection (b) to (k), inclusive, shall apply in any city or town which accepts the provisions of said subsections in accordance with the provisions of section four of chapter four.

(b) Notwithstanding the provisions of subsection (a), or any other general or special law to the contrary, proceedings under the provisions of subsections (b) to (k), inclusive, shall be deemed non-criminal.

As used in subsections (b) to (k), inclusive, the word "owner" shall mean the person or entity registered as the owner of a motor vehicle in the records of the registry of motor vehicles or the person or entity who last had custody or possession of a motor vehicle, legally or otherwise, including, without limitation, operators and owners of automobile graveyards or junkyards as defined in section one of chapter one hundred and forty B; provided, however, that the owner of a motor vehicle which has been stolen from said owner and subsequently abandoned shall not be subject to the penalties provided for in this section.

(c) There shall be in any city or town which accepts the provisions of subsections (b) to (k), inclusive, a parking clerk designated or appointed in the same manner as provided in section twenty A 1/2. Said parking clerk, in addition to other duties provided by law, shall supervise and coordinate the processing of abandoned motor vehicles.

Said parking clerk shall have the authority to hire personnel, or may contract by competitive bid for services necessary to implement the provisions of this section.

(d) A person who abandons a motor vehicle, registered or unregistered, upon any public or private way, or upon the property of another, without the permission of the owner or lessee of said property, shall pay a civil penalty of two hundred and fifty dollars for the first such abandonment and five hundred dollars for each such abandonment thereafter and, in addition thereto shall be liable for costs incurred by a city or town in removing or disposing of such motor vehicle, including, but not limited to, towing, storage, processing and disposal charges.

(e) A police officer, or a person assigned responsibility for abandoned motor vehicles by the parking clerk, who determines that a motor vehicle has been abandoned shall attach a tag to said vehicle containing, but not limited to, the following information: the current date, the location of said vehicle, its make, color, registration number, if any, and its vehicle identification number; a telephone number or address at which the owner may obtain information regarding the status of the motor vehicle; the hearing procedure regarding abandoned motor vehicles, as provided herein; and, a statement that after a specified period of time, the vehicle may be towed and disposed of.

Continued on next page

APPENDIX L (cont.) - ARTICLE 43

(f) After said tag has been affixed to such vehicle, if the owner's identity is ascertained and the motor vehicle is still deemed to be abandoned pursuant to section twenty-two C, the parking clerk or his designee shall send a written notice in a form approved by the registrar of motor vehicles by first class mail to the owner's last known address as contained in records of said registrar of motor vehicles. Such notice shall be deemed sufficient, whether or not actually received by the addressee, if mailed to the address furnished by said registrar. Such notice shall contain, but not be limited to, the following information regarding the abandoned vehicle: the current date, the location of said vehicle, make, color, registration number, if any, and its vehicle identification number; the amount of the fine and costs assessed for the offense and the scheduled date, time and place of the hearing before a hearing officer. Notwithstanding the hearing scheduled by the parking clerk, the owner shall be granted a hearing prior to the scheduled hearing date by appearing at the office of the parking clerk during its regular business hours and requesting an immediate hearing regarding the apparently abandoned motor vehicle. Notwithstanding the hearing scheduled by the parking clerk, the owner may elect to have the matter adjudicated in accordance with the provisions of subsection (h).

(g) All such hearings shall be held before a person hereinafter referred to as a hearing officer who shall be the parking clerk or a designee of said parking clerk. Such hearings shall be informal, the rules of evidence shall not apply and decisions of the hearing officer shall be subject to judicial review as provided by section fourteen of chapter thirty A. No appeal or exception shall operate to stay the imposition of the fine and costs, the revocation or nonrenewal of the license or the prohibition of registration as provided for herein.

(h) A person so notified to appear before the hearing officer may appear and contest or confess the alleged violation, either personally or through an agent duly authorized in writing or in the alternative, may confess the alleged violation by mailing to the parking clerk the notice accompanied by the fine and any costs assessed; provided, however, that such payment shall be made only by postal note, money order or registered check made payable to the city or town in which the violation occurred.

(i) If the owner fails to appear at a hearing, or fails to pay the fine and costs, the parking clerk shall, in the case of a person, notify the registrar of motor vehicles who shall place the matter on record and not renew the license of such person to operate a motor vehicle, and in the case of an entity, notify the appropriate person to revoke or not renew the owner's license or permit to operate a business pertaining to the towing, storing, servicing or dismantling of motor vehicles including, without limitation, automobile graveyards and junkyards. If the abandoned motor vehicle is registered in such owner's name or was last registered in his name, the registrar shall prohibit the registration and renewal of registration of any such motor vehicle under such owner's name. Such notice shall be in a form approved by the registrar of motor vehicles. Upon notification to the registrar of the owner's name, an additional ten dollar charge shall be assessed against such owner of the abandoned vehicle. Said ten dollar charge shall be collected by the city or town and notification of such collection shall be made to the registrar of motor vehicles each month. On or before September first of each year, the registrar shall certify the total number of ten dollar charges to be assessed against the city or town. This number shall equal the total number of notifications of actual collections by said city or town. The registrar shall transmit such certified assessments to the treasurer of the commonwealth who shall include such assessments in the warrants prepared in accordance with section twenty of chapter fifty-nine. All such actions taken by the registrar shall remain in effect until said registrar receives notice from the parking clerk that the matter has been disposed of in accordance with the law.

(j) Notwithstanding any other general or special law, ordinance or regulation to the contrary, if an owner has abandoned a motor vehicle on three occasions and has incurred a fine therefor, each subsequent abandonment, in addition to the fines and costs assessed herein, shall result, in the case of a person, in the revocation for one year of the owner's license to operate a motor vehicle, and in the case of an entity, in the revocation for one year of the owner's license or permit to operate a business pertaining to the towing, storing, servicing or dismantling of motor vehicles including, without limitation, automobile graveyards and junkyards. Such one year time period shall commence on the date on which the parking clerk's records indicate that a hearing was held and a fourth or subsequent abandonment was found or that a fine was received in the mail confessing a fourth or subsequent abandonment.

Continued on next page

(k) Notwithstanding any other provisions of this section, whenever the clerk or a person designated or appointed by said clerk, shall deem that an abandoned motor vehicle is worth less than the cost of its removal, transportation and three days storage and expenses incidental to its disposal, said clerk or designee shall direct a carrier to take possession of such motor vehicle and dispose of it as refuse. A record of such disposal shall be made and kept in the office of said clerk for a period of two years. Neither said clerk, carrier nor the city or town shall be liable for such disposal. The owner of such vehicle shall be notified as hereinbefore provided and shall pay to said carrier all charges for removal, transportation, storage and disposal of such vehicle within fourteen days after the mailing of said notice or shall be subject to the fine herein provided as well as nonrenewal of such owner's license to operate and registration of a motor vehicle.

SECTION 2. Fines imposed for the abandonment and subsequent abandonment of a motor vehicle, as provided for in section one, shall apply only to offenses committed on and after the effective date of this act.

SECTION 3. This act shall take effect upon its passage.

Approved, with emergency preamble, July 11, 1989.

97.30.1 Definition of Abandonment
An abandoned vehicle is a motor vehicle which has either expired or no registration plates; has another vehicle's registration attached to it; is missing or has an expired inspection sticker; is missing parts or has excessive damage; or is considered a safety or environmental hazard, as determined by the department traffic officer. Vehicles towed from the scene of an accident, if unclaimed by the owner, will also fall under the provisions of this section.

97.30.2 If the vehicle in question is properly parked and registered, and the condition of the vehicle is not an immediate threat to public safety, before a determination is made that the vehicle is abandoned, the police department must attempt to locate the owner, up to and including the following:

WEYMOUTH/HINGHAM PERSONAL WATERCRAFT BYLAW

Articles: (see attached)

Sponsors: Weymouth Waterfront Study
Back River Committee

Brief Background:

To direct the second phase of Weymouth Waterfront Plan, the Back River Management Plan, a five member subcommittee of the Weymouth Waterfront Study was formed comprising members of the Weymouth Waterfront Study Committee (2), the Hingham Harbor Development Committee (2), and the Back River Committee (1). As part of the public involvement/citizen participation process for the study, two public meetings were held (at Hingham Town Hall, August 14 and at East Junior High School, November 6). At both of these meetings and through subsequent written comments submitted to the Subcommittee strong sentiment has been expressed toward eliminating personal watercraft (i.e. jet-ski) activity in the Back River Area of Critical Environmental Concern (ACEC). For the reasons stated below, this prohibition has been endorsed by the Weymouth Waterfront Subcommittee, the full Waterfront Committee and the Back River Committee.

Current Regulations Concerning Personal Watercraft:

At present the Town of Weymouth Waterways Code does not contain a section which specifically addresses the operation of personal watercraft. The current State of Massachusetts regulations prohibit personal watercraft activity only in areas within 150 feet of shore (except at headway speed) and within 150 feet of a swimmer or public bathing area.

The Massachusetts Division of Fishing, Wildlife, and Environmental Law Enforcement has promulgated their statewide jet-ski regulations as minimum standards. The Division of Law Enforcement has recently agreed to review local bylaws concerning personal watercraft regulations on lakes and ponds seventy five (75) acres or less or on lakes and ponds larger than seventy five (75) acres where a substantial portion of the total surface water area is located in small or narrow coves or inlets.

Specific Rationale:

While the Weymouth/Hingham Back River ACEC is neither a lake or a pond, it is a well defined space characterized by small narrow coves and inlets. In addition, the Back River ACEC is an inappropriate place for the operation of personal watercraft for the following specific reasons:

I. Public Safety

1. To protect the operators of personal watercraft from the following hazards: dangerous currents, narrow shore passageways, rapidly changing tides and depth conditions, exposed and unexposed mussel/clam flats and shoals, submerged pilings and piers and the presence of the other user groups.

APPENDIX N - ARTICLE 55 (Cont.)

2. To protect other Back River ACEC user groups including canoeists, fishermen, sailors, boat anchorages and swimmers.

II. Preservation of the Back River Area of Critical Environmental Concern.

1. Protection and preservation of the following Back River ACEC traits:

a. Sanctuary for many species of wildlife which would be negatively impacted by excessive noise.

b. Passive recreation site for the following Hingham and Weymouth user groups: hikers, naturalists, photographers, canoeists, fishermen and park/recreation youth groups.

APPENDIX O - ARTICLE 58

The following language is a redraft of Article 29-14, which was endorsed by the By-law Review Committee at its meeting of Wednesday, March 14, 1990:

29-14. Publishing of attendance record.

The Selectmen shall cause to be attached to the copies of the warrant for the Annual Town Meeting posted in accordance with Section 47-2A of the Code of Weymouth and shall cause to be shown on the Local Access Cable Television Channel for Weymouth a listing of all aforesaid numbers. Associated with each listed name shall be printed the number of aforesaid meetings which have been held during the incumbency of that member since the previous annual town election and the number of those meetings which that member has attended in whole or in part.

29-8. Appeals in case of rejection.

If rejected, the applicant may contact the physician for the reason for the cause or causes of his rejection. Appeal

from the findings of the physician may be made in writing to the Board of Selectmen or, in case of employees in the School Department, two (2) members of the School Committee to be appointed by the School Committee and the Superintendent of Schools sitting as a Board of Appeals, within one (1) week of the filing of the results of the examination. This appeal shall specifically authorize the physician to disclose the details of the physical examination to the Board to which the appeal is taken which may then order such further examination as it deems advisable, and the Board's decision shall be final.

29-9. Change in employment.

No change in employment to a position for which more exacting physical standards are herein prescribed shall be made without a reexamination and certification of physical qualifications pursuant to Chapter 29.

A GUIDE TO TOWN MEETING PROCEDURES

By special act of the Massachusetts legislature, Chapter 61 of the Acts of 1921, the Town of Weymouth is governed by a Representative Town Meeting. The Town Meeting is the legislative body of the town, and is charged with the responsibility and authority for the appropriation of funds for the conduct of all branches of town government. Town Meeting is chaired by the Moderator in accordance with town bylaws as set forth in Chapter 47 of the Town Code.

In order for Town Meeting to take any action, there must be an article on the Town Warrant. Articles reach the Warrant by request of interested citizens or the various town boards to the Board of Selectmen, whose responsibility it is to prepare and issue the Warrant. The Appropriation Committee, a fifteen member board appointed by the Moderator, must, prior to the convening of Town Meeting, study the various articles in the Warrant. At Town Meeting the Appropriation Committee makes recommendations on each article in accordance with their duty. **These recommendations normally are one of the following options:**

1. **Favorable Action** (passage of the article);
2. **No Action** (defeat of the article);
3. **Defer to Town Meeting** (no recommendation);
4. **Refer to a Future Town Meeting** (postponement of any action).

Upon presentation of an article to Town Meeting, the Moderator will normally recognize a representative of the Appropriation Committee to speak on the recommendation of that body before recognizing other citizens. Open debate will then take place.

Rules of debate are as follows:

1. Any registered voter of the town may participate upon being recognized by the Moderator, and no person may speak without being so recognized;

2. Non-residents will not be allowed to speak without permission of the Town Meeting;

3. A speaker's time is limited to ten minutes unless extended by vote of the Town Meeting;

4. In order to ensure an impartial debate, the Moderator will normally try to alternate between speakers for or against an issue;

5. After a vote to close debate, ten minutes shall be allowed for further debate. During this period all speakers are limited to three minutes, and only Town Meeting members may be recognized;

6. No person will be recognized by the Moderator for debate on any article more than twice unless all other voters who desire to speak have had an opportunity to do so.

Continued on next page

Unless the Moderator makes an exception to the rule, all motions, including amendments, must be reduced to writing before submission to Town Meeting. It is suggested that if the maker of such a motion has sufficient time, copies should be prepared in a number sufficient to provide each Town Meeting member with a copy of the proposal.

When amendments involve sums of money or periods of time, the largest sum or longest time period shall be voted first. An affirmative vote negates an amendment for a smaller sum or shorter time.

Upon the declaration of a vote by the Moderator, if at least seven members immediately request, the vote shall be retaken by a show of hands or teller count at the discretion of the Moderator. A teller count shall not be mandatory to declare a vote in the cases where a two-thirds vote is required if it is obvious to the Moderator that the two-thirds majority was or was not cast. If at least twenty percent of the Town Meeting members present so request, a roll call vote shall be taken.

If in the course of debate any person has a question concerning procedures, that person shall rise, and upon being recognized, shall raise a Point of Order. The Moderator will provide guidance or make a ruling, and that ruling shall be final in accordance with Massachusetts statutes.

This guide is designed for referral purposes during Town Meeting deliberations. Hopefully it will help all of us to participate in a more active fashion in an orderly carrying out of our responsibilities as elected representatives of the citizens of the town. These procedures allow room for healthy discussion and disagreement on the vital issues facing our town while providing a vehicle for resolution of our differences in an impartial and democratic manner, thus enabling us to move forward together in our mutual concern for the future of the Town of Weymouth.
